

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A gaming device operable under control of a processor, said gaming device comprising:

a display device operable with the processor to:

display a plurality of matingly interconnected puzzle pieces ~~adapted to be displayed by said display device;~~

provide a plurality of selections, each of said selections associated with one of said puzzle pieces, wherein said selections are pickable by a player in each play of a game only until the player obtains a designated combination of said puzzle pieces in said play of the game; and

provide an outcome ~~providable~~ to the player for each said play of the game based on the designated combination obtained by the player and the selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of said puzzle pieces for said play of the game.

Claim 2 (original): The gaming device of Claim 1, wherein the puzzle pieces have a predefined relationship.

Claim 3 (original): The gaming device of Claim 1, which includes a plurality of awards, at least one of said awards associated with each of the puzzle pieces.

Claim 4 (original): The gaming device of Claim 3, wherein said awards include values, credits, free spins, free games or multipliers.

Claim 5 (previously presented): The gaming device of Claim 3, wherein the outcome includes a sum of the awards associated with the puzzle pieces of the designated combination obtained by the player.

Claim 6 (previously presented): The gaming device of Claim 3, wherein the outcome includes a sum of the awards associated with the puzzle pieces of the designated combination obtained by the player and any awards associated with puzzle pieces matingly connected to the puzzle pieces of said designated combination.

Claim 7 (original): The gaming device of Claim 3, which includes a bonus award provided to the player for obtaining the designated combination of said puzzle pieces.

Claim 8 (original): The gaming device of Claim 1, wherein the designated combination of puzzle pieces includes at least one of: a row of matingly connected puzzle pieces, a column of matingly connected puzzle pieces and a designated section of matingly connected puzzle pieces.

Claim 9 (original): The gaming device of Claim 1, wherein at least two of the puzzle pieces are the same.

Claim 10 (original): The gaming device of Claim 1, wherein all of the puzzle pieces are different.

Claim 11 (original): The gaming device of Claim 1, wherein at least one of the selections includes a plurality of puzzle pieces.

Claim 12 (original): The gaming device of Claim 1, wherein the display device includes a video monitor.

Claim 13 (original): The gaming device of Claim 12, wherein the video monitor includes a touch screen.

Claim 14 (withdrawn): A gaming device comprising:

- a display device;
- a plurality of matingly interconnected puzzle pieces displayed by said display device, wherein the puzzle pieces form at least one row and at least one column;
- a row award associated with each of the rows of the matingly interconnected puzzle pieces;
- a column award associated with each of the columns of the matingly interconnected puzzle pieces;
- a plurality of selections, each of said selections including one of said puzzle pieces, wherein a player picks said selections until the player obtains a designated combination of said puzzle pieces; and
- an outcome provided to the player based on the designated combination obtained by the player, wherein the outcome includes any row awards or column awards associated with the designated combination obtained by the player and the selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of puzzle pieces.

Claim 15 (withdrawn): The gaming device of Claim 14, wherein the puzzle pieces have a predefined relationship.

Claim 16 (withdrawn): The gaming device of Claim 14, which includes a plurality of awards, at least one of said awards associated with each of the puzzle pieces.

Claim 17 (withdrawn): The gaming device of Claim 16, wherein the outcome includes the sum of the awards associated with the puzzle pieces of the designated combination obtained by the player.

Claim 18 (withdrawn): The gaming device of Claim 16, wherein the outcome includes the sum of the awards associated with the puzzle pieces of the designated combination obtained by the player and any awards associated with

puzzle pieces matingly connected to the puzzle pieces of said designated combination.

Claim 19 (withdrawn): The gaming device of Claim 16, which includes a bonus award provided to the player for obtaining the designated combination of said puzzle pieces.

Claim 20 (withdrawn): The gaming device of Claim 14, wherein the designated combination of puzzle pieces includes at least one of: a row of matingly connected puzzle pieces, a column of matingly connected puzzle pieces and a designated section of matingly connected puzzle pieces.

Claim 21 (withdrawn): The gaming device of Claim 14, wherein at least two of the puzzle pieces are the same.

Claim 22 (withdrawn): The gaming device of Claim 14, wherein all of the puzzle pieces are different.

Claim 23 (withdrawn): The gaming device of Claim 14, wherein at least one of the selections includes a plurality of puzzle pieces.

Claim 24 (withdrawn): The gaming device of Claim 14, wherein the outcome includes the sum of the awards associated with the designated combination and any row awards or column awards.

Claim 25 (withdrawn): The gaming device of Claim 14, wherein the outcome includes the awards associated with the designated combination multiplied by any row awards or column awards.

Claim 26 (currently amended): A method for operating a gaming device having a game operable upon a wager, said method comprising the steps of:

(a) displaying a plurality of matingly connected puzzle pieces to a player on a display device for a play of said game;

(b) enabling the player to pick one selection from a plurality of unpicked selections associated with said puzzle pieces;

(c) repeating steps ~~(a) to (b)~~ in each play of the game only until a designated combination of the puzzle pieces is obtained by the player; and

(d) providing an outcome to the player based on the designated combination of puzzle pieces obtained by the player and any selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of said puzzle pieces.

Claim 27 (previously presented): The method of Claim 26, wherein the step of providing an outcome to the player includes providing an outcome including a sum of at least one award associated with each of the puzzle pieces in the designated combination obtained by the player.

Claim 28 (previously presented): The method of Claim 26, wherein the step of providing an outcome to the player includes providing an outcome including a sum of at least one award associated with each of the puzzle pieces in the designated combination obtained by the player and any puzzle pieces matingly connected to said designated combination.

Claim 29 (original): The method of Claim 26, which includes the step of providing a bonus award to the player for obtaining the designated combination of the puzzle pieces.

Claim 30 (previously presented): The method of Claim 26, wherein the steps (a) to (d) are provided to the player through a data network.

Claim 31 (original): The method of Claim 30, wherein the data network is an internet.

Claim 32 (original): The method of Claim 26, wherein the steps (a) to (d) are stored on a storage device.

Claim 33 (withdrawn): A method for operating a gaming device having a game operable upon a wager, said method comprising the steps of:

(a) displaying a plurality of matingly interconnected puzzle pieces, at least one row award associated with each of the rows formed by the puzzle pieces and at least one column award associated with each of the columns formed by the puzzle pieces to a player on a display device in said game;

(b) enabling a player to pick one selection from a plurality of selections including said puzzle pieces;

(c) repeating steps (a) to (b) until a designated combination of the puzzle pieces is obtained by the player; and

(d) providing an outcome to the player based on the designated combination, any selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of puzzle pieces, any row awards and any column awards obtained by the player.

Claim 34 (withdrawn): The method of Claim 33, wherein the step of providing an outcome to the player includes providing an outcome including the sum of at least one award associated with each of the puzzle pieces in the designated combination obtained by the player.

Claim 35 (withdrawn): The method of Claim 34, which includes the step of modifying the sum using any row awards or column awards obtained by the player.

Claim 36 (withdrawn): The method of Claim 35, wherein the step of modifying the sum includes adding values associated with any row awards and column awards obtained by the player to the sum.

Claim 37 (withdrawn): The method of Claim 35, wherein the step of modifying the outcome includes multiplying the sum by multipliers associated with any row awards and column awards obtained by the player.

Claim 38 (withdrawn): The method of Claim 33, wherein the step of providing an outcome to the player includes providing an outcome including the sum of at least one award associated with each of the puzzle pieces in the designated combination obtained by the player and any puzzle pieces matingly connected to said designated combination.

Claim 39 (withdrawn): The method of Claim 33, which includes the step of providing a bonus award to the player for obtaining the designated combination of the puzzle pieces.

Claim 40 (withdrawn): The method of Claim 33, wherein the steps (a) to (d) are provided to a player through a data network.

Claim 41 (withdrawn): The method of Claim 40, wherein the data network is an internet.

Claim 42 (withdrawn): The method of Claim 33, wherein the steps (a) to (d) are stored on a storage device.

Claim 43 (new): A gaming device operable under control of a processor, said gaming device comprising:

a display device;

an input device; and

a game including a plurality of matingly interconnected puzzle pieces, said processor programmed for each play of the game to:

- (a) cause the display device to display a plurality of selections, each of said selections associated with one of said puzzle pieces, wherein said selections are pickable by a player in said play of the game,
- (b) stop selections from being pickable by the player in said play of the game after the player obtains a designated combination of said puzzle pieces in said play of the game, and
- (c) provide an outcome to the player for said play of the game based on the designated combination obtained by the player and the picked puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of said puzzle pieces in said play of the game.

Claim 44 (new): The gaming device of Claim 44, which includes a plurality of awards, at least one of said awards associated with each of the puzzle pieces.

Claim 45 (new): The gaming device of Claim 45, wherein said awards include values, credits, free spins, free games or multipliers.

Claim 46 (new): The gaming device of Claim 45, wherein the outcome includes a sum of the awards associated with the puzzle pieces of the designated combination obtained by the player.

Claim 47 (new): The gaming device of Claim 45, wherein the outcome includes a sum of the awards associated with the puzzle pieces of the designated combination obtained by the player and any awards associated with puzzle pieces matingly connected to the puzzle pieces of said designated combination.

Claim 48 (new): The gaming device of Claim 45, which includes a bonus award provided to the player for obtaining the designated combination of said puzzle pieces.

Claim 49 (new): The gaming device of Claim 43, wherein the designated combination of puzzle pieces includes at least one of: a row of matingly connected puzzle pieces, a column of matingly connected puzzle pieces and a designated section of matingly connected puzzle pieces.

Claim 50 (new): The gaming device of Claim 43, wherein at least two of the puzzle pieces are the same.

Claim 51 (new): The gaming device of Claim 43, wherein all of the puzzle pieces are different.

Claim 52 (new): The gaming device of Claim 43, wherein at least one of the selections includes a plurality of puzzle pieces.

Claim 53 (new): The gaming device of Claim 43, wherein the display device includes a video monitor.

Claim 54 (new): The gaming device of Claim 43, wherein the display device includes a touch screen.

Claim 55 (new): A method for operating a gaming device, the gaming device having a game operable upon a wager, for each play of said game said method comprising:

(a) displaying a plurality of matingly connected puzzle pieces to a player;

(b) enabling the player to pick one unpicked selection from a plurality of unpicked selections associated with said puzzle pieces;

(c) repeating step (b) until a designated combination of the puzzle pieces is obtained by the player; and

(d) preventing the player from picking one selection from a plurality of selections associated with said puzzle pieces after the designated combination of the puzzle pieces is obtained by the player; and

(e) providing an outcome to the player based on the designated combination of puzzle pieces obtained by the player and any selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of said puzzle pieces.

Claim 56 (new): The method of Claim 55, wherein providing an outcome to the player includes providing an outcome including a sum of at least one award associated with each of the puzzle pieces in the designated combination obtained by the player.

Claim 57 (new): The method of Claim 55, wherein providing an outcome to the player includes providing an outcome including a sum of at least one award associated with each of the puzzle pieces in the designated combination obtained by the player and any puzzle pieces matingly connected to said designated combination.

Claim 58 (new): The method of Claim 55, which includes providing a bonus award to the player for obtaining the designated combination of the puzzle pieces.

Claim 59 (new): The method of Claim 55, which is provided through a data network.

Claim 60 (new): The method of Claim 59, wherein the data network is an internet.

Claim 61 (new): A method for operating a gaming device having a game operable upon a wager and a secondary game, for each play of the secondary game said method comprising:

- (a) displaying a plurality of matingly connected puzzle pieces;
- (b) enabling a player to input a pick of one unselected selection from a plurality of selections associated with said puzzle pieces;
- (c) repeating step (b) only until a designated combination of the puzzle pieces is obtained by the player; and
- (d) providing an outcome to the player based on the designated combination of puzzle pieces obtained by the player and any selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of said puzzle pieces.

Claim 62 (new): The method of Claim 61, which is provided through a data network.

Claim 63 (new): The method of Claim 62, wherein the data network is an internet.

Claim 64 (new): A method for operating a gaming device having a game operable upon a wager and a secondary game, for each play of the secondary game said method comprising:

- (a) displaying a plurality of matingly connected puzzle pieces;
- (b) enabling a player to pick one selection from a plurality of unpicked selections associated with said puzzle pieces;
- (c) repeating step (b) until a designated combination of the puzzle pieces is obtained by the player;
- (d) preventing the player from picking one selection from a plurality of selections associated with said puzzle pieces after the designated combination of the puzzle pieces is obtained by the player; and
- (e) providing an outcome to the player based on the designated combination of puzzle pieces obtained by the player and any selected puzzle pieces matingly connected to at least one of the puzzle pieces in the designated combination of said puzzle pieces.

Claim 65 (new): The method of Claim 64, which is provided through a data network.

Claim 66 (new): The method of Claim 65, wherein the data network is an internet.
